

Dear Hiring Manager,

This letter is to express my keen interest in applying for a suitable position in your organization.

I am qualified and experienced professional with more than five years of experience in Data analysis, Data Management and developing highly scalable Machine Learning / Deep Learning based applications and Prescriptive services. Currently, I am associated with Thoucentric as Operations Research Specialist responsible to handle formulation and implementation of Trade promotion optimization for a confectionary domain.

I have gained excellent skills in using core data science tools such as Python, and OR tools such as IBM ILOG Cplex, Gurobi, Python and MySQL also well-versed with Linear Programming, Integer Programming and Mixed-integer Programming. I am experienced in Process optimization for Confectionary, Transportation, FMCG, CPG, Automotive, Agricultural chemical and Petrochemical industries.

During course of my work experience, I have worked with different companies which developed my analytical skills and data research techniques. I can adeptly manage, mentor, and motivate personnel / team members to ensure quality and on-time deliverables. Apart from my work experience I am involved in different professional activities such as publications, conferences, certifications and talks to enhance my knowledge and skills in the area of Data Research or Operations Research.

I am eager to put my skills to work in a capacity that will allow me the opportunity to further my professional development. My resume is enclosed for your consideration. Should you have any questions or wish to schedule an interview, please do reach me at +91-8967086538. I look forward to hearing from you soon.

I appreciate your time and consideration.

Sincerely,

**Dr. Anusuya Ghosh**
